AUDIO surge protection:

2 AuDiO-500-B/sv-(DIN)

2.360,-

It is designed to protect radio exchanges and audio amplifiers with output power up to 500 W connected to 100 V distribution lines leading to loudspeakers to the outdoor environment (LPZ 0b, 0c).

Two separate 100 V audio lines A, B can be connected to the protection output.

The protection can be fitted with a bracket for mounting in a switchboard on a DIN rail for an additional CZK 100,-
